

Software Development Engineer (3D/CAD)

We are looking for a Software Developer with not just coding skills, but also Creative and Engineering mind. We offer stable, permanent yet at the same time interesting and diverse job. This position is also well paid. As a key member of the team you will primarily develop software for 3Shape's CAD applications in our Kiev office.

3Shape develops and markets integrated 3D solutions (3D scanners and 3D software) for industrial and healthcare applications, such as hearing aid production where 3Shape has a global leading position. We are an international company with headquarters in Denmark, development in Kiev, Ukraine and manufacturing in Poland. 3Shape have customers in more than 40 countries around the world including the US. For more information, visit www.3shape.com.

Your profile:

You are a talented developer passionate about complex software technologies and state-of-the-art algorithms.

You should have experience in several of the following fields:

- Object-oriented analysis, design and programming
- Development in Delphi, C++ or C#
- Experience in 3D Computer graphics or Geometric Algorithms

We also want you to be:

- Analytical and well organized
- Fluent in English verbally and in writing
- Interested in taking a challenging position in the team of dedicated professionals

We offer:

- Higher-than-average salaries (White)
- Good growth opportunities

3Shape going Global

3Shape is headquartered in Copenhagen, with development teams in Denmark as well as the Ukraine and own production site in Poland. In early 2009 we opened Sales and Support Offices in New Jersey, USA and Shanghai, China.

Our People

Employing and developing the right people is an important key to 3Shape's success. We want to be the **best within our business**, an ambition which has created a true **fighting spirit** throughout the company - with lots of **commitment** and courage, and a **professional attitude** towards business.
