## 3Shape TRIOS Orthodontics adds Bussmann OrthoFolio® clear aligner integration

**Copenhagen, November 8, 2017** – Bussmann OrthoFolio clear aligners now joins the more than 25 orthodontic solution providers integrated with 3Shape TRIOS orthodontics.

The cloud-based workflow integration enables orthodontists to send 3Shape TRIOS intraoral scans, with just a click, to Bussmann for the planning and delivery of its OrthoFolio clear aligner orthodontics solutions.

The digital integration means professionals no longer have to take or mail an analog PVS impression or manually upload a bulky intraoral scan file to a server: saving dental professionals time and money.

With 3Shape TRIOS, users simply choose OrthoFolio from their 3Shape Communicate account. They just click to instantly submit a case and digital impression. Using the 3Shape TRIOS digital impressions, Bussmann then plans treatment and manufactures its OrthoFolio clear aligners.

“3Shape is excited to add Bussmann OrthoFolio aligners to our growing library of TRIOS integrations. Our goal is to provide professionals with seamless access to the highest quality and largest selection of treatment options possible.” says Allan Junge Hyldal, Vice President 3Shape Orthodontics.

“We have found that 3Shape TRIOS provides excellent scan results and precision. Especially in orthodontics, where accurate capture of the soft parts of the gingiva is so important. The scan and workflow with 3Shape TRIOS is simple and smooth for dental care practitioners,” says Thomas Bussmann, founder of Bussmann OrthoFolio® clear aligners.

### **About Bussmann Orthodontics**

Bussmann Orthodontics was founded in 1977 with a focus on superior quality, innovative technology and flexible service. Our dedication to long-lasting customer satisfaction has been a key contributor to the company’s success. The innovative OrthoFolio® aligner system, the flagship in our portfolio of orthodontic solutions, is considered one of the market’s most precise aligner systems with more than 4,000 cases documenting its effectiveness

### **About 3Shape**

3Shape is changing dentistry together with dental professionals across the world by developing innovations that provide superior dental care for patients. Our portfolio of 3D scanners and CAD/CAM software solutions for the dental industry includes the multiple award-winning 3Shape TRIOS intraoral scanner, the upcoming 3Shape X1 CBCT scanner, and market leading scanning and design software solutions for dental labs.

*For Immediate Release*

Two graduate students founded 3Shape in Denmark's capital in the year 2000. Today, 3Shape has over 1,000 employees serving customers in over 100 countries from an ever-growing number of 3Shape offices around the world. 3Shape's products and innovations continue to challenge traditional methods, enabling dental professionals to treat more patients more effectively.
