3Shape TRIOS Now Integrated with Flash Clear Aligners

Copenhagen, November 27, 2017 – 3Shape TRIOS Orthodontics and Flash Clear Aligners are now digitally integrated.

The integration enables orthodontists to cloud-send their 3Shape TRIOS intraoral scans with just a click to Flash for the planning and delivery of its clear aligner orthodontics solutions.

Because the connection is digital, it means professionals no longer need to take or mail analog PVS impressions or manually upload bulky intraoral scan files to a server when ordering the clear aligners.

Professionals simply choose Flash clear aligners from their 3Shape Communicate app and click “send.” The 3Shape TRIOS digital impressions are instantly sent via the cloud-based 3Shape Communicate app.

“The integration provides us with a platform to serve doctors who are using 3Shape’s TRIOS intraoral scanners across the globe in a seamless manner. Doctors can write the prescription for Flash aligners on our portal in less than five minutes. With the scan and prescription in place, we can provide the Flash Treatment Plan in less than two days and dispatch the aligners within five days of approving the plan,” says Vikas Kukreja, General Manager, 3D Future Technologies and Flash Orthodontics.

The India-based, Flash clear aligners now join the more than 30 orthodontic solution and sleep device providers and 220 plus bracket libraries integrated with 3Shape TRIOS orthodontics.

“Flash clear aligners are a terrific addition to the 3Shape TRIOS Orthodontics’ portfolio of treatment options. Our goal is to provide dental professionals with the highest quality and largest selection of treatment options possible. From clear aligners and brackets to implants and sleep devices, 3Shape connects with only original manufacturer libraries for improved outcome and workflow efficiency,” says Allan Junge Hyldal, Vice President 3Shape Orthodontics.

About Flash Orthodontics

Flash Orthodontics, is part of the 110-year young Ador Group with revenues of USD 110m. By introducing India to its own home-grown modern alternatives to conventional braces, the company has begun its journey to offer comfortable, convenient, hygienic and easy to use options to overcome common orthodontic problems. The company prides itself on being “an experiential Indian company, providing orthodontic solutions of the highest quality standards”. We are building an institution that looks to partner orthodontists through science, solutions and service. www.flashorthodontics.in
