## 3Shape TRIOS Integrates with Nuvola Clear Aligners

**Copenhagen, March 14, 2018** – 3Shape TRIOS Orthodontics and Nuvola Clear Aligners by GEO UK European Orthodontic are now digitally integrated.

Nuvola Clear Aligners join the more than 40 orthodontic solution and sleep device providers and 280 plus bracket libraries now integrated with 3Shape TRIOS orthodontics.

The new integration enables orthodontists to cloud-send 3Shape TRIOS digital impressions to Nuvola for the planning and delivery of its clear aligner orthodontic solutions.

Professionals simply choose Nuvola Clear Aligners from their 3Shape Communicate app and click “send.” The 3Shape TRIOS digital impressions are instantly cloud-sent to Nuvola for processing.

Along with the clear aligner treatment, Nuvola provides practitioners with a case management platform as well as a downloadable, start-to-finish 3D treatment simulation, to share with patients.

“3Shape TRIOS Orthodontics is excited to add Nuvola Clear Aligners to our portfolio of open treatment options. We remain very focused on providing professionals with the highest quality and largest open selection of treatment opportunities for their patients,” says Allan Junge Hyldal, Vice President, 3Shape Orthodontics.

“Nuvola is excited to bring our advanced clear aligner solutions to 3Shape TRIOS doctors. The digital workflow ensures precision and efficiency, and coupled with our Nuvola Clear Aligners, a successful treatment for patients,” says Massimiliano Bucceri, Manager, GEO UK European Orthodontics.
