## Network, Share Knowledge, and Learn at the 3Shape Event of the Year!

*Join 3Shape for a deep dive into the digital dental technologies at the inaugural 3Shape Community Symposium*

**Copenhagen, July 10, 2018** – 3Shape, a global leader in 3D scanners and CAD/CAM software solutions for digital dentistry, to host its first-ever 3Shape Community Symposium.

The two-day event will explore technology and workflows that are driving digital dentistry today and in the future in dental practices and dental labs. Presenters at the event will include some of the most pioneering minds in the industry and we are very excited to have world-renowned speakers like Jonathan Ferencz, Sonia Leziy, Brahm Miller, Lee Culp, BJ Kowalski, and others delivering invaluable insight on digital dentistry. Don't miss these terrific learning opportunities.

The Symposium is open to doctors and dental laboratories using 3Shape solutions as well as professionals not using 3Shape solutions interested in discovering more about digital dentistry. Special sessions and hands-on classes will focus on the specific needs of dental practices and labs.

“We are extremely excited about launching the 3Shape Community Symposium. It is a terrific opportunity for dental professionals to gain insight and network with colleagues who are pushing the envelope in terms of digital dentistry,” says 3Shape Co-Founder and Co-CEO, Nikolaj Deichmann. “Because the event is two-days, we decided to concentrate on education and knowledge-sharing rather than entertainment. There will be no movie stars or singers, just dental professionals focused on their craft and improving patient care.”

One of the cool events at the Symposium is the “Genius Bar.” Attendees will be able to get one-to-one 3Shape solution advice and technical help at the drop-by station. All 3Shape solutions will be catered for, and consultations will be with a designated 3Shape expert with in-depth knowledge of the attendee's dental specialty, whether it is restorative, implant, orthodontic or lab.

3Shape Community Symposium participants will also get an exclusive preview into 3Shape technology in the pipeline and can gain up to 15+ CE credits for attending.

The Inaugural 3Shape Community Symposium takes place at the idyllic Biltmore Hotel in Phoenix, Arizona, October 4- 6, 2018.

To take advantage of the early-bird discount and discover more about the event, please go to: <http://www.3shapecommunitysymposium.com>

**About 3Shape**

3Shape is changing dentistry together with dental professionals across the world by developing innovations that provide superior dental care for patients. Our portfolio of 3D scanners and CAD/CAM software solutions for the dental industry includes the multiple award-winning 3Shape TRIOS intraoral scanner, the upcoming 3Shape X1 CBCT scanner, and market leading scanning and design software solutions for dental labs.

Two graduate students founded 3Shape in Denmark's capital in the year 2000. Today, 3Shape has over 1,400 employees serving customers in over 100 countries from an ever-growing number of 3Shape offices around the world. 3Shape's products and innovations continue to challenge traditional methods, enabling dental professionals to treat more patients more effectively.
