

Aspen Dental Management Partners with 3Shape to Accelerate the Digital Transformation at Aspen Dental Practices Nationwide

Full suite of solutions includes award-winning 3Shape TRIOS 4 intraoral scanners

Chicago, USA - January 12, 2021 – Aspen Dental Management, Inc. today announced an agreement with 3Shape that will bring transformative technology to patients and practitioners across the country, accelerating the digital transformation across nearly 900 Aspen Dental locations nationwide.

The deal includes a full suite of 3Shape hardware, software, and service solutions: the award-winning TRIOS 4 intraoral scanner; 3Shape Dental System software, the industry-leading CAD-CAM restorative solution; and a suite of apps that will enhance the patient experience. The distribution and implementation of the full 3Shape TRIOS suite to Aspen Dental practices will be managed by Henry Schein Dental, the dental division of Henry Schein, Inc.

“Leaning into new and emerging tools and technology is a critical part of not only delivering comprehensive, quality care to patients, but creating an end-to-end digital workflow within the dental practice for the dentists we support,” said Dr. Arwinder Judge, Chief Clinical Officer, Aspen Dental Management, Inc. “We’re thrilled to work with 3Shape and Henry Schein, true industry leaders who share our commitment to bringing innovative technology to dentists, which enables them to deliver the highest quality of care to patients.”

3Shape’s TRIOS intraoral scanner has received the Cellerant Best of Class Award for intraoral scanners an unprecedented eight years in a row. Together with 3Shape’s suite of software solutions, the TRIOS intraoral scanner will provide Aspen Dental practices and in-house laboratories with seamless and predictable digital workflows, for everything from crowns and dentures to implants. Aspen Dental practices and labs will also benefit from the growing 3Shape ecosystem of integrated treatment solutions, partners, and manufacturing solutions.

“ADMI went through a very extensive evaluation process before selecting 3Shape as its long-term partner. Their confidence confirms that our focus on delivering scalable solutions and services to DSO’s and dental professionals is right on target. The partnership helps cement our position as a leading global provider of digital dentistry solutions. We now look forward to working closely with Aspen Dental doctors and labs to deliver exceptional patient care,” said Jakob Just-Bomholt, 3Shape CEO.
