

# Digital Dentistry: Dentsply Sirona and 3Shape expand their workflow integrations

**Dentsply Sirona and 3Shape are expanding their workflow integrations to enable dental professionals through DS Core and 3Shape Unite to use a scan-to-lab workflow or establish design and manufacturing protocols directly in their practice.**

**Charlotte/Copenhagen, September 21, 2023.** Dentsply Sirona, the world's largest manufacturer of professional dental products and technologies, and 3Shape, a leading innovator of digital solutions for dental patient care, open the next chapter in their workflow integrations. The harmonization of DS Core, Primemill and Primeprint, with the 3Shape TRIOS intraoral scanner powered by 3Shape Unite, creates more integrated workflows for digital dentistry. Dentists and dental technicians will benefit from simple, secure, and connected technology solutions for effective collaboration which enables them to provide excellent dental care and move forward with confidence.

### **Seamless execution of lab orders with DS Core to 3Shape Dental System**

Dentsply Sirona intraoral scanners such as Primescan will now connect directly with the 3Shape Dental System Software via DS Core. Dentists will be able to easily transmit orders to their lab partners via DS Core. In the lab, this data can then be directly processed in 3Shape Dental System, which can save valuable time.

### **Innovative in-office Primemill and Primeprint solutions for 3Shape TRIOS users via DS Core**

Dentists will be able to seamlessly connect TRIOS scanners to Primemill and Primeprint for in-office milling and printing via 3Shape Unite, DS Core and the inLab CAD software. Thus, high-quality prosthetic restorations such as permanent esthetic crowns, as well as removable and temporary dental applications such as splints, temporary crowns or models can be manufactured directly in the dental practice same day.

For Dentsply Sirona and 3Shape, this is an important next step within their workflow integrations to advance digital dentistry in practices and labs and help improve oral health worldwide.

Rune Fisker, 3Shape's Senior Vice President of Product Strategy says, "3Shape and Dentsply Sirona are providing seamless workflows for our shared customer base. Dentists and labs will now benefit from smooth in-office manufacturing and send-to-lab solutions thanks to an expanded and validated interconnection of our systems. By being faithful to 3Shape's open system principles, we are excited to combine such powerful opportunities in the industry."

Andreas Frank, Executive Vice President and Chief Business Officer at Dentsply Sirona, commented, "The closer integration of leading offerings from Dentsply Sirona and 3Shape via DS Core opens new possibilities for dental practices and labs. Our customers expect to easily combine solutions from different companies in their practice to confidently deliver optimal performance. We are committed to expanding workflow integrations through our platform, DS Core, and thereby help dental professionals move forward with confidence. We are excited that 3Shape TRIOS users will now be able to expand their practices easily with in-office manufacturing solutions such as Primemill and Primeprint."

## About 3Shape

3Shape was founded in 2000 by two people determined to unlock opportunities in 3D digital technology. From two, we've grown to over 2,000 – and from our beginning in Denmark, we're now present in over 100 countries around the world.

Our singular purpose remains the same – to advance and connect medical professionals and patients. We drive progress in digital dentistry with groundbreaking, industry-recognized scanners for clinics and labs. And connect dentists and technicians with software workflows that just flow. We advance and coach professionals on every step of their digital journey – helping to truly elevate the customer experience.

Our impact is reflected in the results we achieve. Every second of every day, our award-winning products restore the confidence of a patient. Decisively going beyond products, we bring ongoing training and education that not only helps professionals stay relevant, it puts them ahead of the game.

We actively advance and connect dentists and lab technicians – the people who are the backbone of the industry. Advance. Connect. Together.
